DESCRIPTION/DETAILS

The building was torn down the week of 9/10/2023. This was due to new ownership of the property to include the bakery building and the brick ranch style house on the hill just south of the Bakery building. Per town planner, the Horace Walker house was in poor condition and there was compromise to part of the foundation. THS member requests of the owner through the realtor to allow photos to be taken prior to the tear down went unanswered. THS was not given notice of the tear down eliminating the opportunity of recording the building through photography.

It is believed that Walker Street, which originally was located where the present day (2023) Thompson Public Library is located, was named after this Walker family. A portion of the road is the entrance and drive of the library from the RT 12 side.
